## To Relieve Catarrh You Must Strike at the Cause

Catarrh is the result of irritation of the mucous membrane caused by germ infection. Catarrh manifests itself in various ways and requires varied treatment. The remedies below are each best adapted to its particular purpose.

### Rexall Mucu-Tone

is a special tonic that strengthens the mucous membranes against catarrh by toning up the delicate tissues so that they are able to resist the attacks of catarrh germs. Taken internally, in conjunction with local treatment, it hastens recovery. Rexall Mucu-Tone is recommended particularly for persons who are unusually susceptible to catarrh and is a reliable treatment in chronic cases. 50c and \$1.00.

### Rexall Catarrh Spray

An effective local treatment. Germicidal, antiseptic, healing. 50c per bottle.

Every sufferer from catarrh will find in these and other tested remedies the ones best adapted to their particular condition.

### BIRD SONGS

Bird songs can be imitated on several different instruments, besides the old familiar way of whistling them. The voice can imitate them well, also, as all who have heard the various bird songs sung by soprano can testify. Whistling seems to approach the nearest to imitating these songs by feathered warblers. The violin gives valuable suggestions of bird songs, too. A lecturer on bird songs, Edward Avis, recently showed how Chopin drew his inspiration for many of his pieces from bird songs. In his nocturnes very strong evidence of this is given. The flute comes very near to the bird song in quality. The voice also does this. Perhaps you remember Wordsworth saying:

"Oh, blushing, shall I call you bird, or but a wandering voice?" There is nothing more perfect in the way of imitation of a thrush song than the whistling of it by a practiced bird whistler. It may seem trivial to a school girl or school boy, with his or her head up in the air, over studying geometry or physiology, to find that quite learned people are studying to imitate bird songs. By all means, if you have good whistling powers, do not disdain to learn how to imitate these bird songs, studying the bird in song and in action, on Front Street. It would be a good idea to imitate their songs on the violin, too, and also to note down, when you go to concerts where some of Chopin's pieces are played, to see whether you can detect bird motives in them. Other composers, too, have put bird music in their compositions, but often it is like Beethoven's doing it in the Pastoral Symphony, where he put bird songs bodily into a part of it. Chopin it is claimed, gets the impression of the bird's song into his music, rather than the exact song. Sometimes in orchestral music you will get the impression that birds are calling to one another. So you see that composers have drawn on bird music largely in their music. Of course, you know that the music of brooks and torrents and the crash of the surf has been used largely by some composers in noting down musical sounds in their compositions. An Ocean Symphony having been written, for instance, by a famous composer of modern times.

other ingredients. Form the mixtures  
into cakes and brown on both sides in  
hot greased pan.

## Bean Loaf

Two cups cooked beans put through  
food chopper, two cups soft bread  
crumbs, one-eighth cup chopped onion,  
one stalk celery or one-half teaspoonful  
celery seed, four teaspoonfuls bacon fat,  
two teaspoonfuls flour, one-half cup wa-  
ter. Mix two tablespoonfuls of fat in a  
frying pan, and the bread crumbs, stir-  
ring well until mixed with fat and add to  
the ground beans. Cook onion in re-  
maining two tablespoonfuls of fat and add  
flour and water and boil. Add to mix-  
ture and make into a loaf. More bread  
crumbs may be needed. Bake until nicely  
brown. Thin slices of bacon placed  
over top of loaf while baking are an ad-  
dition. May be served with tomato sauce  
or bacon gravy.

## Dried Pea Soup

One cup dried peas, two quarts cold  
water, one-half onion, one-eighth tea-  
spoon pepper; three teaspoonfuls of fat,  
two teaspoonfuls flour, one and one-half  
teaspoonfuls salt. Small piece fat salt  
pork.

Soak peas several hours or over night,  
add water, pork and onion. Simmer sev-  
eral hours until soft and run through  
colander or sieve. Bind with butter and  
flour. Add salt, pepper and milk to give  
desired consistency.

over night. Cook until tender. Brown  
sliced onions in frying pan with drip-  
pings, add to stew with tomatoes, season-  
ing and the rice. Cook until rice is well  
done.

## TURMOIL

All the world is in a turmoil.  
It's the end of what's out and the  
beginning of what's in.  
There's no coal in the bunkers  
And the cars are off the track.  
Old winter wields his magic wand,  
Issues his stern decree.  
And holds within his icy hand  
The harvest of the sea.  
The factory whistles frozen-up.  
Its pipes are busted through!  
And down bell in the church tower  
Hath an ominous silence too.  
When restless labor strikes combine,  
Upward the price, soaring  
They run on elevated wires  
Like the cash box in a store.  
The sugar bowl stands lone and bare,  
It hath noavoring power,  
The empty barrel has the grinch  
And cries in vain for flour.  
And Congress is at loggerheads  
Though eager for the fight;  
Each member thinks the other wrong,  
And he alone is right.  
There's a Chamberlain, with Roosevelt  
Would turn down Wilson's rule,  
And the great refractory boy  
In a backwoods country school.  
But it is now, as 'twas of old,  
When the stars built the ark  
When the procession moves along  
The little dogs will bark  
But the cloud, a silver lining hath  
Although there's wrong to right,  
And so in power of faith and hope  
Be strong! exert thy might!  
The muddy waters soon will clear  
And bring the dark and days  
Still beams the North Star, clear and bright,  
Above the mist and haze.  
Play B. Henley,  
Lorell, Me.

## USE-POP-CORN-THREE WAYS

There is one good American food of  
which we have an abundance and we can  
use as much of it as we like—corn. Use  
all kinds and in many ways. Pop-corn  
is one of the things everyone likes. It is  
a good food just simply popped, and can  
also be made into such a wholesome, in-  
expensive sweet that it should be widely  
used. Here is the way to pop it and  
several ways to use it.

Shall we corn it? It is on the cob and  
pop the dried corn in a covered iron fry-  
ing-pan or a regular popper, shaking vig-  
orously. If a wire popper is used, do  
not pop the corn directly over the flame  
or it will scorch. Shake it quite high  
over the flames, better over coals or on  
the top of the stove. Take just enough  
corn to cover the bottom of the popper.  
A cup of pop-corn makes about three  
quarts when popped.

Pop-corn is good, of course, seasoned  
with salt. A common way of serving is  
to mix with a very little melted butter  
and then sprinkle with salt. But have  
you ever tried it as a breakfast food eat-  
en with milk or cream? It makes a good  
cereal.

To make a sweet of pop-corn boil to-  
gether 1 cup of corn sirup and 1 table-  
spoon of vinegar until a few drops hard-  
en in water and pour it over the freshly  
popped-corn while it is hot. As soon as  
it is cool enough to handle, grease the  
hands and form into balls. This amount  
of sirup covers 3 quarts of pop-corn.

Chocolate pop-corn is delicious. Cook  
1 cup of corn sirup for five minutes. Add  
2 ounces of chocolate (two squares), and  
stir until melted. Cook slowly until a  
soft ball is formed in water. Beat until  
thick. Have the popped corn in a greased  
dish. Pour the sirup over it and form  
into balls when cool enough to handle.  
This amount covers 1 1/2 quarts of pop-  
corn.

Farmers' Bulletin 553 tells how to  
grow pop-corn. Why not have a few  
rows of pop-corn in your garden next  
spring?

WE EARN MORE MONEY THAN ANY  
OTHER NATION.WE HAVE MORE MONEY INVESTED  
THAN ANY OTHER NATION.WE WILL HAVE TO SPEND MORE  
THAN ANY OTHER NATION TO  
WIN THE WAR AND PROTECT  
OUR LIVES AND PROPERTY.

But up to this year we have saved less than any other nation.  
Our income has been forty billion dollars a year. Our savings  
have been five billion dollars a year. It is going to cost twenty  
billion dollars to carry on the war this year. Part of this has al-  
ready been subscribed in Liberty bonds, part will come from taxes,  
but by far the largest part must yet be saved.

Cash, Cash, CASH, is what we need. The only way to have  
it is to work harder and save more. Cash must come before men  
and munitions. Cash must come before luxury, pleasure, con-  
venience, or even comfort.

Cash is the one big dominant power we must get first to win.  
And we must win. Let's save our money and put it in the Bank.  
Let's save four times as much as we have ever saved before. The  
Banks are rendering a mighty service to the Nation. Without  
them business would stop tomorrow, pay-rolls would stop, cash  
would disappear, and every normal habit would be changed.

Don't hoard or hide cash. Cash is never safe until it is in  
the Bank or safely invested. So Save, Save, SAVE. Put your  
money in this Bank today and keep on building up, getting in-  
terest, growing stronger and preparing for the way to win peace  
and liberty.

This Bank is a member of the largest banking  
system in the world, the National Banking System  
with total resources of \$18,553,000,000.00.

## IS THE TIME

We have a few more high-grade suits left and  
as we believe in honest advertising we are going  
to make this statement,—we have not lowered the  
price on these suits and we cannot; but here is the  
point.—The price marked on every suit is less than  
what we have got to give for our new spring suits  
at wholesale. Bear in mind that there are only a  
few left and they comprise suits from the house of  
Kuppenheimer and other high-grade manufactur-  
ers.

## BELOW CITY PRICES

An order comes from a distance of 70 miles for  
one of our suits. This man claims that the prices  
are much less than the same suits sell for in the city  
stores. He had ought to know for he is around  
more or less in the city stores such as Portland,  
Biddeford, Haverhill, Lawrence, Lowell, Boston and  
other cities. Come in, look them over, we are safe  
in saying that this will be your last chance to get a  
suit of known value for such a low figure. Just  
look them over, ask questions about them and don't  
buy unless you want to, but come in and look them  
over.

## Town Meeting Talk

Town meeting time will soon be here  
and all citizens of this good old town  
should be giving serious thought to the  
many difficult problems which will have  
to be settled at the annual meeting.  
Undoubtedly the town will be obliged to  
raise more money than ever before be-  
cause our country is at war and it is an  
impossibility to run our schools and other  
town affairs for the same money as in  
times of peace. This is a condition which  
applies not only to Woodstock, but to  
every town in the state and nation.  
Times are hard, taxes are high and  
mounting higher. People are hard pressed,  
but unfortunately there are not a few  
of our citizens who are holding our town  
officials responsible especially our select-  
men for many things which were and are  
entirely beyond their power to help or  
prevent. From some sections comes the  
cry, "Turn out the selectmen, they are  
taking us poor mortals beyond the power  
of endurance, they are filling their own  
pockets with the town's money, we must  
cut off their heads and give them a les-  
son."We do not doubt but what our select-  
men have made mistakes, they wouldn't  
be human if they didn't. No doubt some  
of our farmers may have had their valua-  
tion raised more perhaps than they  
should, no doubt some other farmers are  
not paying as much tax as they should,  
but because some mistakes may have been  
made which we do not believe will prove  
so very great after all, are we as a town  
going to take a step backward and deal  
unfairly with our officials who have tried  
to do their duty as best they could? This  
is no time to bring personal bias or  
prejudices into town affairs. We should  
come to the meeting with the one idea of  
doing what is best for our town and coun-  
try. Let us think these things over and  
whatever we do at town meeting let us  
be sure we are doing the square and  
right thing by our town, our country and  
our fellow citizens.

#### WEST PARIS

The Fourth Annual Prize Speaking Contest of West Paris High School was billed for this week, Friday evening, Feb. 22, but on account of measles has been indefinitely postponed. Two out of the eight contestants, Oscar Richardson and Earle Bane, have not been able to go to school for the past two or three weeks and a week ago another, Hazel Cole, came down with them, which leaves such a few that it was thought unwise to continue with them and uncertain when the others would be able to take it up again. Earl Bane has had a bad throat, not being able to speak above a whisper and Oscar Richardson has been very sick, both have had the measles hard and are slowly recovering. Frank Packard, who had them at the same time, went back to school this week.

The Basketball games with Mechanic Falls last week were very enjoyable and interesting. West Paris boys won 81 to 10, but the girls lost 10 to 12. They are anticipating one of the best events of the season when the return games are played here March 1st. There was an omission in last week's issue of a figure 2 in the tens place which made 26 look like 6. The game at South Paris the week before was first announced, a tie but later investigation and comparing the points by both scorers and referee it was found that both agreed and amounted to the same, 26 to 25 in favor of West Paris.

#### KEZAR FALLS.

Walter H. Newbegin  
Walter H. Newbegin, for many years a resident of this village, passed away on the afternoon of Feb. 10, from an attack of pneumonia, after a short and severe illness. He was in his sixty-ninth year, and leaves a wife, brother and two sisters beside many friends who mourn their loss.

He was a loyal friend and generous to a fault. His benefactions were unostentatious, often only the recipient knowing who had relieved his necessities.

Mr. Newbegin was a member of Greenleaf Lodge A. F. and A. M., Aurora Royal Arch Chapter and Ossipee Lodge of Odd Fellows. Both lodges were well represented at the funeral. Members from each lodge were chosen as bearers.

Mr. Newbegin was a staunch democrat and had twice served as postmaster, receiving his commission under two administrations, Cleveland's and Wilson's. Only a few days before his death he had received an appointment for the next four years.

Funeral services were held in the M. E. Church on the afternoon of Feb. 13, Rev. Cymbrid Hughes officiating. Selections were sung by the M. E. choir. "Shall we meet beyond the river," "Nearer my God to Thee," and "Some time we'll understand." The floral offerings were very beautiful and lodges and clubs were well represented. Among the flowers was a pillow inscribed with the word "Husband" and a wreath from friends in New York City.

Charles Heard of Biddeford, a cousin of Mr. Newbegin, attended the funeral, returning home the same day.

Mr. and Mrs. William Haradon of New York, who have been staying with their aunt, Mrs. Walter Newbegin, through their uncle's illness and death, returned to New York, Monday.

Dr. and Mrs. F. G. Devereux arrived in town Saturday morning, returning Monday evening to Portland.

W. H. Garner, who has been having a bilious attack and severe cold is convalescing.

Will Mason was taken Monday noon when he went to the postoffice after the mail, with what seemed to be heart failure, falling on the platform apparently unconscious. A doctor was called and he recovered sufficiently to sit up in a sleigh to be carried home, but he appeared very weak.

W. M. Chellis came from Portland to attend W. H. Newbegin's funeral.
